Handicap Calculations

GHIN required - Max difference between partners is 10. For each 9 hole portion each player receives half of their 18 hole course handicap, thus establishing them a 9 hole handicap. For the scramble portion an average of the two nine hole handicaps is figured and then the team gets half of that average rounded to the nearest quarter shot. For the best ball portion a player will receive 75% of his nine hole handicap rounded to the nearest half.
